Description (max 200 words)	<p>The project LANGUAGE ON THE MOVE aims to reach people travelling to Baltic and Nordic countries to work, to study or for other purposes and help them to realise the importance of learning the language of a destination country and to accept norms of courtesies and behaviour they should follow while in a country. The project has been funded with support from the Nordplus Horizontal Programme.</p> <p>In order not to get lost and feel more comfortable in a foreign country they need a language survival kit (social phrases, useful tips). These people travel by different types of public transport to reach their destinations: they use ferries, coaches, trains. So the main idea of the project is during the trip on the PT to equip them with the survival kit comprising useful social phrases and cultural tips by introducing innovative and non-traditional language teaching method. This aim was reached by involving the PT users into language and intercultural learning process using an informal out-of classroom environment such as public transport. While traveling from one country to another, there is a perfect opportunity for commuters to use their traveling time for picking up some useful phrases in the target language equipping them with a language learning tool – intriguing eye-catching video clips and recordings, facilitating better communication and at the same time</p>

	<p>making their trip shorter and traveling time spent in a useful way.</p>
Methodology (max 150 words)	<p>Main steps of the project:</p> <ul style="list-style-type: none"> • preparation period and analysis of needs of users • design and preparation of materials • piloting language learning materials • dissemination of the project ideas and sustainability
