Description (max 200 words)	<p>Founded in January 2016, the association strives to emphasize and promote the professional integration of migrant and refugee artisans in France. Passionate women and men, with a valuable expertise acquired in their country of origin, are met in France with countless obstacles to their professional integration as craftsmen.</p> <p>Social and linguistic barriers, the lack of networking, the nonrecognition of their qualifications and experiences, the lack of awareness of the market, are all making difficult the pursuit of their careers in their host country. Often employed in so-called voltage sectors (security, cleaning, construction...), these choices by default lead to a rupture of their career path and a loss of self-esteem.</p>
Methodology (max 150 words)	<p>To value the skills that come into our territory, is to enrich our society and support its development by considering each and every individual as what he/she is and can do. La Fabrique NOMADE promotes a new integration model, which considers the person, his/her professional background, by identifying his/her acquired skills, as well as studying the adaptation and transfer opportunities in the French economic and cultural context.</p> <p>Our work allows artisans to return to their jobs, find their rightful place in society and foremost give a new meaning to their lives after exile.</p>
